

Cage Features & Options

Infinite Modular Products Systems (IMPS) How often have we wished there was a way to incorporate all of our birds into one caging unit. One that we could custom design to our own specifications and that would have an artistic contemporary appearance to fit any decor? IMPS Modular Panel and Caging now offers you that opportunity through the use of any number of additional snap-in modular panels and dividers. Most panels weight about 20 pounds each and can easily be walked in and out of the house. All materials made exclusively to Bennett IMPS, LLC. specifications.

Finally... a caging system that grows with your avian family!

Bennett IMPS Standard Features on all cages:

- 100% solid anodized aluminum (totally safe for your birds)
 - 3/8 inch solid aluminum rod. Available in four anodized colors.
 - Sage mist and champagne are our stock colors. Gold and silver by special order.
 - 7/8 inch silver bright tube horizontals
 - 1-1/8 inch bar spacing
 - Absolutely no welds
 - Light weight, yet extremely strong
 - Can be used indoors or outdoors year round
 - Will not tarnish, chip or peel - easily cleaned
- Two rotating, spill-proof, lock in or out feeding centers
 - Two large 6 1/2" diameter stainless steel bowls per center
- Walk-in door swings inward as well as outward
 - Right or left door hinge of your choice
 - Has 2 locking "gate style" closures, virtually bird-proof
- 15'-80' of natural sassafras branches plus various diameters IMPS "non-destructible" perching same as used by Disney World and Sea World

Bennett IMPS Optional Features:

- Radius corner, polycarbonate floor-guard sheeting is available for under the sanctuary. These "oversize" sections extend six to twelve inches beyond the edges of the sanctuary.
- 24" rolls of pull-thru, non-absorbent paper for sanctuaries. 1000' per roll...extremely low maintenance!
- Cage Dividers with polycarbonate sheeting
- Concealed nestbox capability (request if needed)
- Sun screens and wind barriers
- Oxyfresh Cleansing Gele' for cleaning and disinfecting
- Custom sanctuaries are always a pleasure to design
